Stained Glass Windows Installed at the Church of the Good Shepherd

Tequesta, FL – Local art glass studio McMow Art Glass, Inc. installed three custom built stained glass windows in the Church of the Good Shepherd Sanctuary, today. The windows were coordinated by the church committee who was enthusiastic about the arrival of the new windows.

Installed into the main sanctuary, the windows took three months to design and build. The artistic team at McMow rose to the challenge of depicting traditional religious themes in a contemporary style. Each window was hand built using all imported mouth-blown glass, utilizing traditional European craftsmanship.

Initially, parishioners are greeted by the impact of the large, colorful windows and then have the opportunity to interpret the themes and messages that are uniquely portrayed in each. These include the power of the Holy Spirit, the Glory of God and the leadership of the Good Shepherd.

“I am truly thankful for the relationship we have all developed between McMow and Good Shepherd,” said Father Bob of The Episcopal Church of the Good Shepherd. “I am grateful for the fine windows McMow has lovingly designed and created for us.”

“McMow was absolutely thrilled to work with the Church of the good Shepherd on these beautiful windows. The church committee was encouraging and allowed us to demonstrate what we are really capable of, said McMow President Shanon Materio. “We are delighted with the unique style and themes that are conveyed in each of these stunning pieces of art.”

An additional 14 windows are currently being designed and are expected to be completed in the near future. A compilation of work done by the design team at McMow Art Glass, Inc. is available at www.mcmow.com.
